

## An eco sleeve and box

**MAKING SURE THAT YOUR PRODUCT ARRIVES PERFECT!**

We're delighted to present an aesthetic and innovative new solution for the safe shipping of premium bottles. Manufactured by Flexi-Hex, the system comprises an Eco Protective Sleeve which expands to form an impact resistant protective honeycomb layer around a bottle, and a self-sealing pinch top postal box, which further protects by suspending your bottle and preventing movement during transit.

## FLEXI-HEX ECO PROTECTIVE SLEEVE

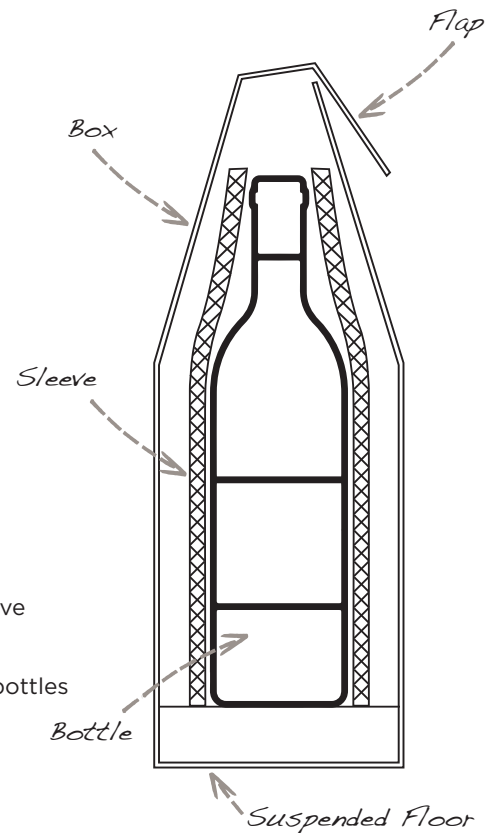

### Product Details

- > Sleeve is specifically designed for the safe shipping of premium bottles
- > Sleeve is fully customisable with your company branding
- > Sleeve is space saving, plastic free, recyclable and biodegradable
- > Sleeve improves your companies environmental credentials
- > Sleeve continues to delight your customer, even after your drink has been delivered to them, adding value and brand perception
- > Sleeve fits bottles up to 320mm in height

## FLEXI-HEX ECO TRANSIT BOX

### Product Details

- > Eco Transit Box is specifically designed to work with the Eco Protective Sleeve
- > Eco Transit Box comes in four sizes, all accommodating the Eco Protective Sleeve: one bottle (single), two bottles (double), three bottles (triple) or six bottles
- > Eco Transit Box is plastic free, paper based (over 85% recycled content), reusable, recyclable and biodegradable
